OK RESTAURANT & FAST FOOD

COMMERCIAL SOFTWARE PROPOSAL & TECHNOLOGY HANDOVER

Multi-Branch Enterprise Digital Ordering, Real-Time KDS, Dispatch & Financial Audit Platform

Proposal ID: EXP-OKREST-2026-INT
Date: October 2026
Standard: Enterprise Commercial Handover

TURNKEY READY • 100% FUNCTIONAL

---

1. EXECUTIVE SUMMARY & BUSINESS VALUE PROPOSITION

This enterprise proposal presents the complete commercial acquisition and full source code handover of the **OK Restaurant Multi-Branch Digital Platform**. Architected for fast-casual, high-volume dining, buffet services, and delivery logistics, this turnkey solution eliminates reliance on expensive third-party aggregator portals (such as Foodpanda, UberEats, and Deliveroo) and gives your brand complete digital sovereignty.

💰 0% Commission Fee

Save 20% to 35% commission on every home delivery and takeaway order, adding tens of thousands of dollars directly to your bottom line.

⚡ 40% Faster Table Turns

Self-ordering QR codes allow dine-in guests to scan, browse branch menus, and submit kitchen orders directly without waiting for waitstaff.

📈 Real-Time Multi-Branch

Centrally monitor sales across Dera Chungi, Main Bypass Jampur, Kot Chuta, and any future branches from one master executive portal.

🛡️ Zero Leakage Financial Auditing

Every transaction, payment method (Cash on Delivery / Counter), delivery fee, and rejected/voided order is tracked in an automated daily and weekly ledger with PDF export.

📦 Total Technology Ownership

Full transfer of Intellectual Property, complete source code repository, custom domain deployment, and lifetime maintenance warranty with zero recurring vendor royalties.

2. PLATFORM ARCHITECTURE & OPERATIONAL MODULES

The ecosystem connects five dedicated portals in real time using Supabase PostgreSQL webhooks and stateful triggers:

📱 Customer Ordering & Buffet Portal

- ✓ Dynamic branch selection with live distance computation
- ✓ Instant Dine-in Table QR token auto-routing
- ✓ Home Delivery with automatic per-kilometer delivery fee calculations
- ✓ Open Buffet pass registration with digital verification QR ticket

🏢 Branch Admin Operations Portal

- ✓ Live POS order management & order status transition pipeline
- ✓ Branch capability toggles (Dine-in, Takeaway, Delivery on/off)
- ✓ Dynamic delivery zone builder & pricing rules per branch
- ✓ One-click printable QR table standee cards for customer tables

- ✓ Live customer order tracking with status updates and WhatsApp support
- ✓ Branch-specific menu inventory management and availability flags

👨‍🍳 Kitchen Display System (KDS)

- ✓ Real-time bump bar with acoustic chime notifications on new orders
- ✓ Itemized kitchen prep checklist with variant details & customer notes
- ✓ Elapsed preparation timers with urgency color coding
- ✓ Instant status dispatch (PENDING ➔ PREPARING ➔ READY)

🛵 Rider & Delivery Dispatch Portal

- ✓ Real-time ready delivery order queue
- ✓ One-click WhatsApp customer dispatch slip generation
- ✓ Direct Google Maps turn-by-turn navigation deep-links
- ✓ Cash on Delivery collection tracking and rider delivery completion

👑 Executive Owner Financial & Audit Portal

Designed exclusively for restaurant owners and general partners to maintain absolute fiscal control:

- ✓ Multi-branch consolidated vs. branch-specific comparative revenue analytics
- ✓ Hourly, 24-hour daily, 7-day weekly, monthly, and annual sales breakdowns
- ✓ Audited separation of realized revenue vs. voided/rejected orders (prevents audit discrepancies)
- ✓ One-click Executive Audit Report generation with certified printable PDF export

3. LIVE EVALUATION LINKS & TESTING CREDENTIALS

The platform is currently live, deployed, and fully operational for testing and investor demonstration. Use the credentials below to test each role across different browser tabs or mobile devices:

PORTAL MODULE	LIVE TESTING LINK	USER ROLE	LOGIN EMAIL	PASSWORD
Customer Portal	`ok-restuerent.vercel.app`	Customer	*No login required*	*Open Access*
QR Table Ordering	`/table/qr_dera_t01_sec789`	Dine-In Guest	*Table 01 Direct Scan*	*Instant Order*
Open Buffet Booking	`/buffet`	Buffet Guest	*Token Pass Booking*	*Pay Cash at Counter*
Executive Owner	`/owner`	`OWNER`	`owner@okrestaurant.com`	`okaykarubas12390`
Dera Chungi Admin	`/admin`	`BRANCH_ADMIN`	`admin.dera@okrestaurant.com`	`okaykarubas12390`
Main Bypass Admin	`/admin`	`BRANCH_ADMIN`	`admin.sherifalon@okrestaurant.com`	`okaykarubas12390`
Kot Chuta Admin	`/admin`	`BRANCH_ADMIN`	`admin.kotchuta@okrestaurant.com`	`okaykarubas12390`
Kitchen KDS	`/kitchen`	`KITCHEN`	`kitchen.dera@okrestaurant.com`	`okaykarubas12390`
Rider Delivery	`/rider`	`RIDER`	`rider1.dera@okrestaurant.com`	`okaykarubas12390`

4. END-TO-END OPERATIONAL GUIDANCE & TEST WALKTHROUGH

To experience the full multi-portal workflow as a customer, kitchen chef, delivery rider, and owner:

Step A: Place a Customer Order (Dine-in / Delivery)

1. Open `ok-restuerent.vercel.app` or click the `Table 1 QR Link`.
2. Select items (e.g., Mutton Karahi, Zinger Burger, Cold Drinks) and proceed to Checkout.
3. Confirm with **Cash on Delivery / Pay at Counter**. Note down your Order ID (e.g., #OK-1002).

Step B: Admin Confirmation & Kitchen Real-Time Cook

1. Open `/admin` in a new window and confirm the incoming order.
2. Open `/kitchen` to see the order appear with an audio chime.
3. Click **"Start Preparing"** and then **"Mark as Ready"** when food is prepared.

Step C: Rider Dispatch & Delivery Handover

1. Open `/rider`. The ready delivery order will be visible.
2. Click **"Share via WhatsApp"** to auto-populate the customer delivery receipt slip.
3. Click **"Deliver Order"** to record cash collected and close out the order.

Step D: Owner Sales Ledger & PDF Export

1. Open `/owner`.
2. Observe that total sales, daily ledger, and hourly trends update instantly.
3. Click **"Export / Print Financial PDF"** to view the certified high-contrast A4 executive audit statement.

5. COMMERCIAL TERMS, LIFETIME MAINTENANCE & HANDOVER

This proposal provides a complete, unrestricted commercial sale and technical handover with all-inclusive guarantees:

🌐 Personal Custom Domain Setup

Complete deployment on your chosen branded domain (e.g., `order.yourrestaurant.com` or `www.yourbrand.com`) including SSL certificates, DNS orchestration, and business email integration.

🛡️ Lifetime Maintenance & Bug Warranty

Unconditional guarantee: Any functional defects, performance regressions, or database errors in core workflows will be resolved with priority support at zero extra maintenance retainers.

🗄️ Dedicated Supabase Cloud Transfer

Full transfer of the production Supabase PostgreSQL cloud database, row-level security (RLS) policies, atomic stored procedures, and encrypted user authentication storage.

💻 100% Source Code & IP Ownership

Full GitHub repository ownership transfer (Next.js 14, Tailwind CSS, TypeScript) with full rights to modify, white-label, rebrand, or expand across unlimited international franchises.

6. COMMERCIAL MILESTONE STRUCTURE

To ensure absolute trust and transparency, the commercial acquisition is structured around a milestone-based handover:

25%

Advance Commitment Deposit

Payable upon signing this agreement. Initiates brand tailoring (restaurant logo, menu item onboarding, branch coordinates), custom domain mapping, and staging environment initialization.

75%

Final Project Takeover Balance

Payable only upon complete inspection, final live deployment on your custom domain, transfer of Supabase master database, handover of GitHub repository, and staff training completion.

🔒 Buyer Protection Guarantee

The remaining 75% payment is strictly contingent upon your 100% satisfaction and verification that all features (Table QR Ordering, Admin POS, Kitchen KDS, Rider WhatsApp Dispatch, and Owner Financial Audits) are operating flawlessly on your live domain.

7. ACCEPTANCE & AUTHORIZATION

By signing below, both parties agree to the commercial terms, 25/75 milestone payment schedule, and intellectual property transfer detailed in this document.
